

Autumn 2 - Transport

Key Texts

- The Train Ride
- My First Things That Go

Literacy

During Phase One Phonics we will listen to instrument sounds and we will use our bodies to make sounds known as body percussion.

As writers, we will begin to learn how to write our names and make recognisable marks that we can talk about.

As readers, we will be learning new vocabulary and will be sequencing the events in a familiar story.

Maths

As mathematicians, we will learn how to count to 10 and back with the help of number rhymes.

We will also learn simple vocabulary to describe position.

Physical Development

We will be learning how to move in different ways that will help develop our strength and coordination.

We will also be learning the importance of moving safely around the room.

Personal, Social and Emotional Development

This half term we will be celebrating our Similarities and Differences. We will have weekly celebrations to recognise the success of all and will learn new songs about friendship and feelings. We will use our feelings barometer to show our teachers how we are feeling every day.

Communication and Language

This half term we will learn how to ask and answer simple questions. We will take part in a daily circle time called 'Speaking Stone' where all children have an opportunity to speak.

Understanding the World

As Geographers, we will think about different transport types. We will think about how we travel to school and talk about what we see on the way. As Historians, we will compare old and new buses. As theologians, we will think about how and why Christmas is celebrated.

Expressive Arts and Design

As Designers, we will design a box model bus and we will then make them. We will make choices on the colours we use and will discuss how many windows and wheels we would like.
